THEPEOPLESPAPER

SALT LAKE DAILY HERALD

The HERALD enters upon the new year with better hopes and brighter prospects than it ever before enjoyed. The remarkable success of the paper in the past, as manifested by its large and steadily growing subscription list, its increasing selvertising patronand steadily growing subscription list, its increasing advertising patronage and the expressions of goodwill towards the journal which greet us from all quarfers, convinces the publishers that they are doing what they set out to do—namely, furnish a newspaper that the people would like, and therefore support. The Herand, as in the past, will be the people's paper. Independent in a political sense, it will always be found on the side of the people, outspoken on questions affecting the rights of the masses; battling for local self-government and the largest liberty to individuals consistent with public good; laboring for a pure, honeet and economic administration of government; treating public matters dispassionately and employing language calculated to enlighten the reason of men, rather than influence their passions, and working for peace and the development of the resources of the territory, instead of trying to create strife and retard progress. With our increased facilities for gathering news, both by telegraph and mail, the employment of a larger number of correspondents in different sections of the country, and the better arrangement of all the many details of the establishment, we confidently promises to make the SALT LAKE DAILY establishment, we confidently promise to make the SALT LAKE DAILY HERALD a better paper than ever.

SALT LAKE WEEKLY HERALD.

About the 1st of March, we will begin the publication of a Weekly Edition of the HERALD. The demand Edition of the HERALD. The demand for such a paper has been very pressing during he past two or three years. The aim of the publishers will be to furnish a paper for those people who live off the main lines of travel and who are not accommodated with mail service oftener than once a week; to provide a newspaper for those who provide a newspaper for those who have only one day a week of leisure to devote to the pleasant and profits. ble employment of reading; to supply a suitable edition of the HERALD for sending abreat—a paper that shall faithfully and honestly represent this great and growing territory, with its many and important industries and its thrifty, enterprising people; to the news, and at the same time combine the essential elements of a literary, educational and industrial journal. In fact, our aim will be to make the Weekly Herand a welcome visitor to the home, where it will be found a constant fund of instruction, entertainment and profit, to all members of the family Besides the leading characteristics of the Daily, the Weekly will contain matter specially for the agriculturist, the gardener, the stock-raiser, the mechanic, the kitchen and the hold generally and the same time commissions of the family besides the leading characteristics of the Daily, the Weekly will contain matter specially for the agriculturist, the gardener, the stock-raiser, the mechanic, the kitchen and the hold generally and the same usual search for Guy Fawkes in Board B. Barated B. TO MAKE ROOM FOR OUR SPRING STOCK!

The gardener, the stock-raiser, the mechanic, the kitchen and the household generally, and an important feature of its columns will be the well-chosen, entertaining and moral literature, also reports of the Tabernacle discourses. Nothing will be admitted to its columns that has not first been carefully prepared and remitted to its columns that has not first been carefully prepared and revised. The price will be only \$2 a year, a figure unprecedentedly low for a far west newspaper. We confidently predict for the WEEKLY HERALD one of the greatest successor, and the efforts of the publishers shall be to make the paper merit the popu-larity that it cannot fail to attain.

THE BRITISH PARLIAMENT

The Speech From the Throne. The Irish Throne.

The Irish Throne.

London, 5.—Morning journals agree that the Irish and Afghan affairs will receive a large amount of attention the coming Partiament.

The weather to-day is line. The royal procession to the Parliament House took place in anourdance with the programme. The Queen arrived at the House of Lords at 210. Upon receiving a copy of the prech from Lord Cairns, lord high tranceller, her malesty handol it back to him, and Lord Cairns then read the speech. The ceremony lasted fifteen minutes.

speech. The ceremony lasted fifteen minutes.

QUERN's STEECH.

My Lords and Gentlement: It is with much satisfaction that I seam resert to the advice and assistance of my Parliamest. My relations with all powers continus friendly. The course of events since the prorogation of Parliament has tended to furnish additional security to the maintenance of European passes on the principles is if down by the treaty of Berlin. Much, however, still remains to be done to replace the disorder with which the latewar has effected many parts of the Turkian empire. A convention for the suppression of the slave trade has been concluded between my government and that of the Suiam. At the close of your last session I capressed the hope that the treaty of Guidamuk had happly terminated the war in Afghantism, in conformity with its previsions. My snvoy, with his retime, was honorably received and interninably the Ameer of Cabul While engaged, however, in the exercise of their duty, he and these connected with the embasy were treacherously attacked by overwhelming numbers, and after a heroic defense, were almost all massacred. An outrages of intolerable called for condign chastilization, and strip in the territories of the government of the Ameer, were ordered to retrace their steps. The skill exhibited in the rapid march upon Cabul and in the advance upon other lines of action, reflects the highest credit upon the officers and men of my British and native forces, whose bravery has shone with wonted lastre in every collision with the enemy. The abdication of the Ameer and the unsettled condition of the country renders the recall of my troops impossible for the present, but the principle on which my government has hither acted remains unchanged, and while determined to make the frontless of my Indian empire strong, I desire to be on friendly relations alike with those who may rule Afghanistan and with the people of that country.

My anticipation of the early establishment of place in South Africa has been

inon since with this people of that country.

My anticipation of the early establishment of peace in South Africa has been fuffilled. The captured position of the Zulu king and the breaking up of the military organization on which his dynasty was based, have released my possessions in that part of the world from the danger which seriously impede their advancement and consolidation. In Basutoland a native outbreak of considerable importance has been effectually quelled by my colonial forces, while Transvaal has been freed from the depredations of a powerful chief who, having successfully resisted the former g verament of the country, had persistedly rejected our attempts at cancillation. I have trasen to hope that the time is now approaching when an important advance may be made towards the establishment of a union or conservation unite, which the poyed by the inhabitant of Cape Colony may be extended to my subjects in other parts of South Africa. Papers out her send other matters will be forthwith laid before you.

be prepared and laid before you without delay.

My Lords and Gentlemen, The commission which at the close of the season I informed you I had is meet to inquire into the esure of agricultural depression throughout the United Kingdom, is pursuing its labors. In the meantime the serieus deficiency in the usual crops in some parts of Ireland, has rendered necessary special precautions on the part of my government to guard against the calamities with which these districts are threatened. With this view they have called upon the authorities charged with the duty of administering relief to make annie preparation for the distribution of food and feel, should such step become necessary, and they have also stimulated the employment of labor by advances on times more liberal than those prescribed by exading law. I feel assured that you will give your sanction to the course which has been adopted where it may have exceeded the power entrusted by Parliament to the executive of government. A proposal will be submitted to you far providing the funds required for these exceptional advances on the security of property administered by the church temperativy commissioners.

The Quoen then refers to certain measures to be considered, and concludes: I trust the blessings of the Almighty Gol will attend and direct your labors.

New York, 5.—A Sun Washing'en special: Carl Schurz has been acting a double part in the official melodrama which has ended with the removal of Commissioner Hayt. In a letter to Fish. February 2h, he detice that he has said that Fish's accusations had rothing to do with Hayt's removal. As a matter of fact, Schurz positively asserted on the day Hayt was removed, that he make the discharge simply because the commissioner had withred information and not because any of the charges under investigation had been proven. More var, Schurz wrote a statement about the case for general publication, in which he said no proof of any distonies act or corrupt practices on his (Hayt's) part had been found. Schurz knews at his time that Hayt had sent his son, under an assumed name, to buy a silver carer juntoe in a government reservation. He also knew that the exposures of this fact was solely due to Fish's publication and charges.

A DAHNABLE DEN.

How Prisoners are Treated in Kentucky.

Kentucky.

Louisville, 5.—The legislature now investigating the state prison, roports that its condition is shamefully bad. It is overcrowled, the sewerage is defective, unclean diet, and sourcy prevalls among the prisoners to a fearful extent. At one time over 200 were in the hospital with it. There was a total of cases during the year of 745 out of 1,000 immates. The sole cause has been improper food and treatment, and is wholly increusable. The mortality has nearly doubled over preceding years, and yet the number of prisoners is not much if any greater. Flogging prisoners is earried to a cruel extreme. The clothing is insufficient, as are the beds and bedding. Six hundred and forty-eight of the cells are only 6 feet 3½ inches wide. 6 feet 3½ inches high, and yet over 100 of these badly ventilated cells have been compelled to hold two convicts during the night for ten or twelve hours. B. astly practices have resulted and disease has been generated. The committee advise the governor to remove the keeper, J. W. Louth.

San Francisco, 5.—There was a fire in a Chinese wash nouse on Pine street near Teylor, this marning. It is not known how many occupacite, but ten badies of Chineman have been recovered from the raths.

The Maine Matter.

Augusts, Mo., 5.—Governor Davis, in concluding his inaugural message, thus refere to the late difficulties: There can be no half way ground in regard to this great public wrong, which should receive the condemnation of every honest citizen that may serve as a warning in faine to those who, under a free government, may attempt to trample upon the rights of the people. I would recommend an investigation of the whole subject of arranging, tabulating and counting returns, and that the facts ascertained may be made public.

Borlin, 5.—The intimations this morning in some of the semi official papers that an increase in the Garman army is intended, even bey-not that already announced, namely, by the formation of sp-chal Alsace Lorraine regiments, have caused no little sensation. It is understood that Baron VonMantentel, governor-general of Alsace-Lorraine, supposts the proposal, as tending to create a material feating in the affects provedings.
